Why French?

(Pourquoi apprendre *le français*?)

French is the official language in 29 countries, which puts it only second place behind English. French is also the procedural language for the European Union (EU) as well as a working language for many international organizations, including the United Nations and the International Red Cross. French is the world's 5th most spoken language and one that is projected to grow in number of speakers in the coming decades.

Why Immersion?

(Pourquoi *l’immersion*?)

In an immersion setting, students learn key academic subjects through the language, not just the language itself. Decades of research shows that immersion education reduces academic gaps and delivers lifelong benefits. Immersion education is suitable for ALL learners.

1

**Improves test scores
in math, reading,
and vocabulary**

2

**Improves mental
flexibility and problem-
solving skills**

3

**Improves high school
graduation rates**
