

October 7, 2024

To the Board of Directors and Management  
French American School of Denver  
Denver, Colorado

We have audited the financial statements of the governmental activities and each major fund of French American School of Denver (the "School") for the year ended June 30, 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 5, 2024. Professional standards also require that we communicate to you the following information related to our audit.

### **Significant Audit Matters**

#### ***Qualitative Aspects of Accounting Practices***

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the School are described in Note 1 to the financial statements.

We noted no transactions entered into by the School during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the School's financial statements were:

Depreciation Expense: Management's estimate of the depreciation expense is based on the estimated useful lives of the assets. We evaluated the key factors and assumptions used to develop the depreciation expense in determining whether it is reasonable in relation to the financial statements taken as a whole.

Colorado Public Employees' Retirement Association (PERA) Net Pension and Net OPEB Liabilities: Management's estimate of its portion of the net Pension and OPEB liabilities and related revenues, expenses, deferred outflows, and deferred inflows are based on the audited financial statements received from PERA.

The financial statement disclosures are neutral, consistent, and clear.

***Difficulties Encountered in Performing the Audit***

We encountered no significant difficulties in dealing with management in performing and completing our audit.

***Corrected and Uncorrected Misstatements***

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. In addition, none of the misstatements detected, as a result of audit procedures, and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

***Disagreements with Management***

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

***Management Representations***

We have requested certain representations from management that are included in the management representation letter dated October 7, 2024.

***Management Consultations with Other Independent Accountants***

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the School's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

***Other Audit Findings or Issues***

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the School's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

**Other Matters**

We applied certain limited procedures to the management discussion and analysis, the budgetary comparison schedule and the schedules of the School's proportionate share and contributions related to the PERA Pension and OPEB liabilities, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

**Restriction on Use**

This information is intended solely for the information and use of Board of Directors and management of the School and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,
